

InstaCradle

60 YEAR GUARANTEE

**Acoustic & Sports cradle that enables the sub floor to be levelled
InstaCradle is suitable for use on concrete and timber sub-floors**

Manufactured using recycled rubber crumb
Size: 10mm / 20mm Base, 40mm / 25mm Leg
Cradle Type: Acoustic & Sports

InstaCradle high performance acoustic and sports cradles are guaranteed for a period of 60 years from the date of installation.

The guarantee applies to all types of indoor installations, when used as a sub-floor system.

Our polyurethane bonded, recycled rubber cradles will have a life span in excess of **sixty years** when installed and operated within normal living conditions (including kitchen and bathroom areas) and protected from ultraviolet (UV) light.

In addition to indoor installations, the acoustic cradles are also suitable for outdoor applications (such as when used with outside decking). For outdoor applications, the acoustic cradles are guaranteed for a period of **ten years**.

InstaCradle will maintain its integrity for this time span provided it is not subjected to abnormal conditions such as undue physical loading.

This guarantee covers against manufacturing defects and is only upheld in instances where our recommended product selection and installation methods have been strictly adhered to.

InstaCradle is truly a 'cradle to cradle' product as it is entirely recyclable and, at the end of its useful life, can be shredded and then re-worked into another environmentally friendly product.

Finally, based on our long term experience together with field and laboratory test data and our ISO 9001 quality management system, we offer this guarantee with confidence.
