

## Exclusive product launch at DOMOTEX Hannover 2012

### InstaFloor launches InstaTile product range

InstaFloor will be launching the first range from their brand new InstaTile suite of high performance, environmentally friendly "Ecoback" carpet tiles at [Domotex Hannover](#) (14th – 17th January 2012).

Already generating global interest, our unique InstaTile construction produces a carpet tile that is lighter than the equivalent bitumen-backed varieties whilst being able to surpass these conventional tiles in terms of ease-of-fitment, comfort and durability.

InstaTile provides the ultimate in comfort, performance and elegance by combining the finest **rubber crumb underlay** with quality carpeting, enabling the InstaTile range to perform admirably, even in the most demanding of commercial applications.

To experience first-hand the quality and durability of this exciting new range, come and see InstaFloor on **Stand E43, Hall 006**.

In addition, if you require complimentary tickets for Domotex Hannover, please reply to this email by Thursday, 12th January 2012 stating your full contact details and number of tickets required.
