

## New range of stylish contemporary door stops

InstaFloor is pleased to announce the launch of InstaStop, an exciting new generation of door stoppers that are both practical and stylish.

Available in a striking range of 'Funky' colours and 'Wood Effect' finishes, InstaStop's upmarket non-slip door stops offer a quality alternative to drab traditional door stoppers that make them an attractive addition to any contemporary home or business.

## Why choose an InstaStop?

- Available in an eye-catching range of 'Funky' colours and 'Wood Effect' finishes.
- InstaStop is a decorative and useful addition to any home or business.
- An InstaStop makes an ideal gift.
- The non-slip matting on the underside side works effectively on carpets, tiles, wood and vinyl floors.
- InstaStop can also double up as an elegant paperweight.
- InstaStops are made from non-toxic materials and are both environmentally friendly and non-harmful to children and pets, who won't be able to pick it up.

Manufactured from polymers mixed with reconstituted quartz stone and sand, the base has non-slip matting while the surface is covered with a durable vinyl PVC in either wood effects or one of many vibrant colours.

InstaStop eye-catching and practical door stops, now available at an RRP of just £9.95 each (€12.15), make the perfect accessory for every family home.
