DOMOTEX

## Come And See US At Domotex!

For the sixth consecutive year InstaFloor will be exhibiting its high performance, environmentally responsible flooring systems at Domotex. Our InstaLay, InstaCradle and InstaSport ranges will be displayed and demonstrated on our impressive, purpose built stand, situated in its regular spot.

At Domotex, InstaFloor will, for the first time, be demonstrating the installation of porcelain, ceramic and natural stone tiles using InstaLay 25hg (2.5mm high grab) which was also designed for use with LVTs.

## Complimentary Tickets

We look forward to welcoming you to our stand and if you'd like to arrange a meeting with us during the exhibition, please contact [Paul Robson](#) prior to the show and we will send you **complimentary Domotex tickets**.

### REQUEST COMPLIMENTARY TICKETS

This, together with InstaLay 30 and 50 for carpet tiles and wood flooring, will be the subject of frequent demonstrations throughout the show.

With no messy wet adhesives or open time delays, flooring installations using InstaLay are quick, clean and easy and save significant time and money. Made from recycled rubber crumb, eco-friendly InstaLay is loose laid, greatly reduces sub-floor preparation times, and provides superior comfort and long lasting acoustic performance when used with LVTs, carpet tiles, solid and engineered wood, laminates, porcelain and ceramic tiles and carpets.

InstaCradle acoustic/sprung undercarriage floors and sports floors use a unique rubber crumb cradle that is guaranteed for 60 years. These adjustable raised floor systems, with a service void, include on-site levelling and remove the need for wet screeds.

Alternatively, just drop by for a coffee or a drink and see our frequent InstaLay demonstrations – we're sure you'll be impressed! We look forward to welcoming you to our stand at Domotex.
