New InstaLay LVT installation video

InstaFloor, manufacturer of the revolutionary InstaLay self-adhesive acoustic underlay, has launched a new demonstration video showing how easy it is to install luxury vinyl tiles (LVTs) on loose laid InstaLay.

Watch video now

The video, provides detailed fitting instructions together with advice and practical tips.

While InstaLay, with its low or high grab self-adhesive membrane, has been designed for use with carpet, carpet tiles, wood and sheet flooring it is particularly beneficial with LVTs. Its recycled rubber crumb construction forgives sub-floor imperfections and minimises the risk of them telegraphing through the finished surface. This often eliminates the need for costly and time consuming screeds or smoothing compounds and, being loose laid, it requires no wet adhesives and so avoids any mess and open times.

For more details call +44 (0)118 973 9560 or visit www.insta-floor.co.uk
